

Kitchen Bar and Island

Details:

In the above pictures the base was painted white, or cream and the top was stained expresso. The second picture is all stain Early American.

Typical height is 36-1/2". The cabinet portion is typically 16" deep. There is a 1-1/2" overhang on the door side. There are several add on options: adding 14" to 18" overhang on the back side to make this an island, with plenty of room for bar stools. Another option is changing the doors to drawers. Or even garbage pull-out drawers.

Price List:

Length	# of Doors	18"	32"	36"
48" ¹	2	\$575	\$600	NA
62"	3	\$740	\$815	\$865
